PRODUCT FEATURES

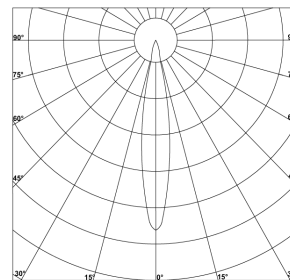

DESCRIPTION

Rayon magnetic track lighting is a 48V low-voltage, versatile solution that utilizes magnetic coupling for tool-free fixture installation and repositioning.

Designed for flexible layouts in architectural and interior applications, the system supports a wide range of luminaires, including linear modules and spotlights. It is ideal for commercial, retail, and modern residential environments.

The system offers clean aesthetics, dimmable and smart control options, and a sleek, integrated appearance making it perfect for dynamic architectural lighting solutions.
