

**LINEAR PROFILE LUMINAIRE
PRISMLINE**

P64-007010

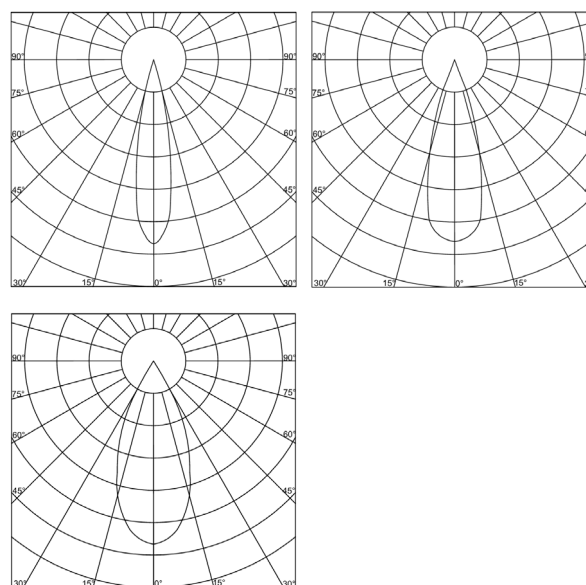

PRODUCT FEATURES

DESCRIPTION

PrismLine is a high-performance LED linear module designed for integration into linear profile luminaires, delivering efficient and reliable illumination across a wide range of applications. Engineered with advanced optical technology, it ensures uniform light distribution with consistent output and minimal glare. Ideal for use in architectural lighting, signage, and linear installations, PrismLine enhances visual comfort and aesthetic appeal. Its compact design allows seamless installation within various profile systems.
